

# Science Café

at Thomas University

Photo: Great Horned Owl by Scott Holstein

*Meet native birds of prey as Sandy Beck, St. Francis' Wildlife Association Education Director, shares their stories along with the amazing adaptations that enable them to hunt and survive. Beck will also discuss the important roles raptors play in ecosystems and how we can all help them. Your heart will soar with each bird's unique power and beauty.*

## “Raptors of the Red Hills”

**Tuesday, Sept. 26**

**6-6:30 p.m.:**

**Reception with the speaker**

**6:30-7:30 p.m.:**

**Presentation**

**Flowers Foods  
Executive Classroom,  
Smith-Bonvillian Hall,  
Forbes Campus**

**No admission charge.**

Science Café is a forum for face-to-face conversations  
with scientists about current science topics.
